Subject : Distribution Code and Independence of Contiguous Wind Farms

Dear Customer

We are writing to you in relation to the Connection Agreement [GV_NOTIFNUM] dated [GV_ISSUE_DATE] for [GV_SINGLE_LINE_ADDR PREM] and the independence or otherwise of this project from any contiguous wind farms.

A Wind Farm Power Station will be deemed to be unrelated to and independent of the other Wind Farm Power Stations already present in a Contiguous Wind Farm Site (“Independent Wind Farm Power Station”) if:

- the Applicant, where a body corporate, is not a related undertaking of another Wind Farm Power Station already present in the Contiguous Wind Farm Site or in respect of which an application for a Connection Agreement has been made to the DSO or the TSO;
- no person or body corporate holding 50% or more of the equity or voting rights in the Applicant is a person connected with any person or body corporate holding 50% or more of the equity or voting rights in another Wind Farm Power Station present in the Contiguous Wind Farm Site (“Connected Person”).

DSO require that you sign and return the attached declaration indicating whether the Wind Farm Power Station to which this Connection Agreement relates is an Independent Wind Farm Power Station, or not. Signed declarations should be returned to the address above and should be included with the signed Connection Offer.

The DSO may, at its sole discretion, whenever it believes that it has reasonable grounds for so doing, require you to produce such supporting evidence as it may reasonably require before accepting the declaration below.

Your ongoing obligation to advise DSO of any change in your status will be as set out in your Connection Offer.

If you have any queries please do not hesitate to contact DSOGenerators@esb.ie

Thank you for your co-operation in this matter.

Yours faithfully,

Gerry Halligan
Manager Commercial & Customer
ESB Networks Ltd

DECLARATION OF INDEPENDENCE FROM CONTIGUOUS WINDFARMS:

I of
(printed name) (printed address)
declare that the Wind Farm Power Station to which this connection offer
[GV_NOTIFNUM] dated [GV_ISSUE_DATE] relates is / is not (delete as
appropriate) an Independent Wind Farm Power Station.
